

On behalf of the Immaculate Conception Grade School community, I just wanted to take this opportunity to welcome you to our website. As you may have heard, IC Grade School has an excellent reputation for educating children from Prekindergarten 3 through 8<sup>th</sup> grade. We were the very first Catholic grade school in Elmhurst and continue a long standing tradition of educating children for more than 100 years.

Immaculate Conception Grade School merges a strong academic program with rich, Catholic faith formation to maximize each student's potential. Creating an environment of love, faith, and justice in which education can flourish is our priority. In addition, our athletic program and extracurricular activities provide other avenues where our students excel, build friendships, and grow together.

As a community, we are extremely proud of our graduates' achievements in high school, college, and beyond. Many return to share their gratitude for the high academic standards, strong faith formation, values, and sense of self-discipline that were instilled in them at ICGS.

I invite you to explore our website. To get an even better sense of who we are, please come and experience our school environment firsthand by calling our school office (630-530-3490) and scheduling a tour.

Thank you for your interest in Immaculate Conception Grade School. We are IC!

Sincerely,

Mrs. Cathy Linley, Principal
